Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 12 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with sunny spells, before turning wet at the weekend.

Today:
Staying dry on Friday with plenty of sunny spells developing in between any cloud breaks. The odd snow shower may just reach the far northeast of the region. Remaining cold and windy with coastal gales later. Maximum temperature 2 deg C (36 deg F).

Tonight:
A dry evening with plenty of clear spells. Cloud will build from the west during the early hours and winds will strengthen. Another cold night with a widespread frost. Minimum temperature -3 deg C (27 deg F).

Saturday:
After a bright start for some, cloud will thicken during the morning with the odd snow flurry possible in the afternoon. Windy throughout and feeling cold. Maximum temperature 2 deg C (36 deg F).

Outlook for Sunday to Tuesday:
Cloudy and windy on Sunday with outbreaks of rain, snow, and the risk of freezing rain. Further outbreaks of rain on Monday and Tuesday. Windy at times and less cold.
